HIGH-CAMERA & MULTI-CAMERA - INCLUDED FREE

The **High-Camera** view gives you the entire field of your band's show - full view of the drill, guard and props - and will continue to show that view throughout the entirety of the show. This camera angle does not offer solos or close-ups. It is an overview of the entire program. High cam is available FREE online and **will not be on the disc**, but will be available in HD online, available for a lifetime. Once our order is placed, we will receive a login to access it.

The **Multi-Camera** version shows a mix of all of our cameras throughout the venue. It will alternate between the high camera view described above, to cameras throughout the stadium and at field level. This type of production is what you would expect to see on TV. You'll see featured sections of the band, soloists, guard features, percussion features, and individuals during the show. Everyone on the BOX5 crew is a former member of the pageantry arts and BOX5 prides itself getting the right shot every time.
